

ROC NEUTRE

CLEANING AGENT

PRODUCT DESCRIPTION

Roc neutre is a neutral detergent, pleasantly perfumed and rich in tension-active and sequestrant agents.

Roc neutre is non foaming and has been developed for simple everyday use with a buffer or cleaning machine on treated floors.

Roc neutre is above all recommended for rinsing stripped surfaces.

INSTRUCTION FOR USE

- Prepare a 1% solution of **Roc neutre** (one part of **Roc neutre** for 100 parts of water) in the reservoir of a buffer or floor-scrubber fitted with white or red discs.
- Turn off vacuum.
- Wash liberally with this solution several times (minimum twice).
- On the last wash with the buffer or floor scrubber, vacuum the suspension leaving a perfectly clean surface.

TECHNICAL SPECIFICATIONS

Aspect: transparent green liquid

Density: 1.0 ± 0.1

Non-flammable

pH: 7 ± 0.1

Biodegradability: > 90%

PACKAGING

- 20 litres can
- 200 litres drum.

The product can be stored one year in its original container, kept in a closed place and protect from frost.

COVERAGE

Approximately 1 liter for 50 m².

HEALTH AND SAFETY

Non dangerous good.

Refer to our safety data sheet.
